

INTELLIGENT TECHNOLOGY SERVICES

ITS TECH

is a trusted provider of industrial automation and smart robotics solutions in Vietnam.

With a team of experienced engineers and cross-industry expertise - from electronics and mechanics, logistics, and automotive - we deliver integrated systems that enhance productivity and reduce costs.

Certifications & Competencies

Technology integration partners of leading robotics companies (FANUC, ABB, Yaskawa, etc.)

The team of engineers is certified in robot programming, PLC, machine vision, and production simulation.

More than 100+ projects have been successfully implemented at home and abroad.

Our Services

Offline Programming & Simulation

3D simulation, path optimization, offline programming for efficient deployment.

Manufacturing & Fabrication

Precision mechanical fabrication, assembly frames, jigs, control cabinets.

Installation & Commissioning

Professional installation, startup testing, and handover with full documentation.

Maintenance & Repair

Preventive maintenance, quick-response service, component replacement.

Inspection & Sorting Robots

Robotic application
Smart Conveyor System
Component Assembly Automation

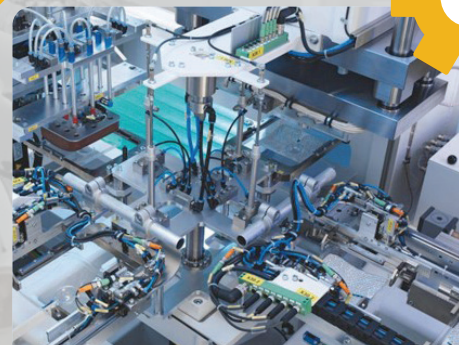

Our Solutions

Robot Applications

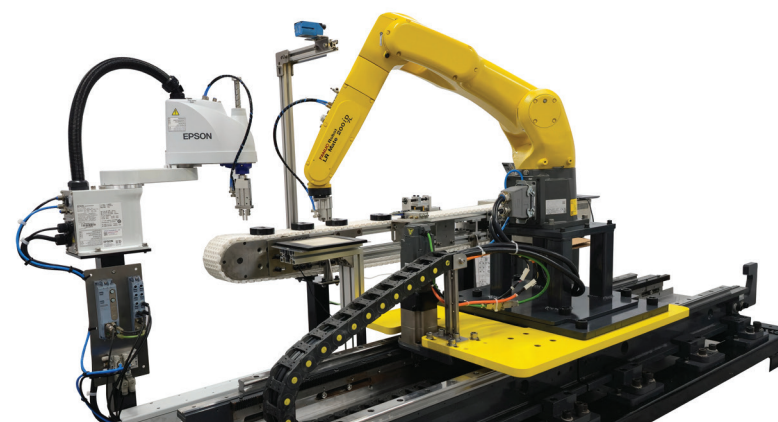

Automation Systems

Customized Machine Builder

Machine Tool
And Supporting Industry

Smart Feeder & Inspection

Products & Projects

Machine Tending

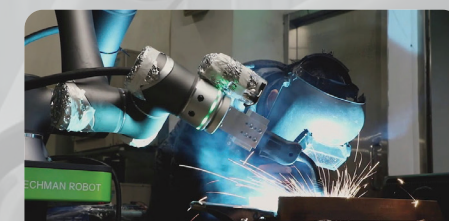

Assembly

Pick and Place

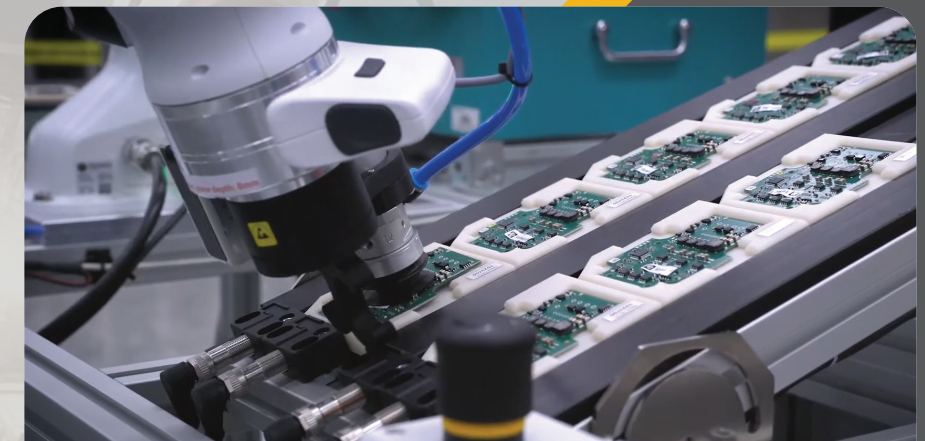

Pressing

Welding

Accuracy Conveyor

Quality Testing And Inspection

ITS TECH provides comprehensive automation and robotics solutions to help factories enhance performance and efficiency.
